

Health and Safety – General Policy

Considerations from the legal team:

Ultimately the employer is accountable for health and safety and therefore cannot delegate health and safety duties. It can require staff to cooperate with them and to follow what they are told, but it cannot delegate a duty. There is no problem asking staff to do something e.g. a risk assessment, which is part of the policy, but it remains the employer's duty to ensure it's done and that it's suitable and sufficient. It would not be a defence to a nursery if a member of staff did not undertake, for example, a risk assessment. The employer must therefore have a system in place to ensure such things are done.

At **The Secret Garden Nurseries** we provide and maintain safe and healthy working conditions, equipment and systems of work for all our employees and a safe early learning environment in which children learn and are cared for. To develop and promote a strong health and safety culture within the nursery for the benefit of all staff, children and parents, we provide information, training and supervision. We also accept our responsibility for the health and safety of other people who may be affected by our activities.

The allocation of duties for safety matters and the particular arrangements which we will make to implement our health and safety procedures are set out within this policy and we make sufficient resources available to provide a safe environment.

Aims and objectives

The aim of this policy statement is to ensure that all reasonably practical steps are taken to ensure the health, safety and welfare of all persons using the premises.

To achieve this we will actively work towards the following objectives:

- Establish and maintain safe working practices amongst staff and children

- Make arrangements for ensuring safety and the minimising of risks to health in connection with the use, handling, storage and transport of hazardous articles and substances

- Encourage all staff, visitors and parents to report any unsafe working practices or areas to ensure immediate response by the management.

We believe the risks in the nursery environment are low and we will maintain the maximum protection for children, staff and parents. The nursery will:
